JOHN BRENT ADAM L. DIZON

Kalayaan Subd • Angeles City, 2009 • johnbrent.dizon@gmail.com • 09474800456

SUMMARY

I'm a Computer Science graduate from Holy Angel University passionate about merging technology and creativity through AI. During my internship at Kaizenaire, I worked remotely as an AI Specialist, generating over 150 AI visuals with tools like Koala AI, Sora, and Midjourney, later refined in Photoshop and Canva for blog thumbnails and marketing materials.

I also produced animated and marketing videos using Premiere Pro and After Effects, applying my skills in color grading and visual storytelling — passions I've honed since high school filmmaking.

With Coursera certifications in Image Editing, Graphic Design, and Creative Design Tools, I combine artistic precision with technical skill to create engaging, high-quality visuals. I thrive in remote setups, meeting deadlines and collaborating effectively through Zoom and WhatsApp.

WORK EXPERIENCE

Kaizenaire - AI Specialist / Data Analyst   December 2024 - March 2025

I utilized AI tools like ChatGPT and Notion AI to streamline content creation, chatbot development, and internal documentation for client projects. I also automated workflows using WordPress CRM, improving efficiency in SEO, content publishing, and client communication while collaborating remotely with international teams.

Angeles Medical Center - I.T. Support   September 2025 - Present

Provided end-to-end technical support and network management for hospital systems, ensuring smooth operation of hardware, software, and security infrastructure. Maintained and repaired computers, printers, servers, and CCTV systems, while overseeing IT asset documentation, procurement workflows, and compliance with hospital technology standards across all departments.

EDUCATION

Bachelor of Science in Computer Science   August 2021 - April 2025

Holy Angel University
- Stocks Management Optimization for Hardware Stores Using Random-Forest Regression

CERTIFICATES

Adobe   **Adobe x Coursea**
